

'P' MIXER

MACHINE PRINCIPLE

The mixing drum turns and the paddles remain stationary. This action forces the materials to mix together thoroughly (forced action mixer).

DESCRIPTION

The Mixer Model 'P' has been designed to fulfil the needs of contractors who wish to carry out small works on site, mixing most low to high slump materials.

FEATURES

- Compact robust steel design
- Positive mixing action
- Quick lock and release pan drive system
- Lightweight and portable
- Safety guarding to head/pan and motor/gearbox
- CE approved

APPLICATIONS

Ideal for mixing Resdev's fully comprehensive range of epoxy and polyurethane flooring systems.

The method of preparation is dependent upon both the substrate and the type of product used. For further information please refer to Resdev's product specific datasheets, specification information and material safety data.

MODEL 'P' MACHINE SPECIFICATION	
Height 915mm	Length 700mm
Width 495mm	Weight 57kg
Power 110v/230v/415v	

MODEL 'P' PAN SPECIFICATION	
Depth 380mm	Diameter 355mm
Capacity 38 litres	Mix Capacity 25 litres

ACCESSORIES

Metal Mixing Bucket

Single mixing paddle

Multi-paddled full creteangle head

Transformer

- Dual socket 3kva 16 amp 110v

Extension cable

- 16amp 110v – 10m length
