

Intrica Illumnia Colour Chart

Intrica Illumnia is a fabulous collection of luxurious yet streamlined neutral colour combinations encapsulated within an epoxy resin matrix to form an integral part of a high build floor and wall coating or flow applied flooring system depending upon environment requirements. In delicate whites, creams and greys, Intrica Illumnia is lifted by the inclusion of pale silver or rich gold tarnish free metallic flakes to showcase the depth of finish whilst maintaining an easy to clean floor surface.

A subtle seamless, hardwearing and hygienic alternative to traditional contract flooring, Intrica Illumnia is ideal for commercial, showroom and leisure environments.

Chiffon

Spice

Bisque

Alabaster

Devoré

Suede

Some colours in some systems can be affected by UV light over time. Non standard colours are available on request. The colours shown may differ from the original product due to reprographic and technological media variations. The same colour in different products may also vary due to the composition and texture of the final finish. If colour and final aesthetics are of concern, please contact us to request an actual sample of the colour and system required.
